

# AMBER DAWN

Pure Being, do you remember this place of unity? Intrinsic universal truth is always available to us when we align with evolution.

As an Energy Intuitive, I am able to reflect and help guide one to unity through their highest self's desires. Sessions are as unique as each individual's needs. My practice combines body, mind & soul integration to create a solid, grounded foundation. I help guide individuals in balancing their earth bodies using nutritional education, structure, accountability, mapping patterns, triggers and perceptions, breaking cycles and achieving goals.

I am witness to a soul's deeper longing through trance states & dreams. I have spent 20 years interpreting symbolism to be able to translate these deep desires in waking life. I love utilizing divination techniques and am particularly fond of working with the archetypes in the Tarot.

I have the natural ability to awaken the imagination. Guiding individuals and groups into their inner landscapes through meditation. Together, in a supported way, we dive deep discovering lost moments of time, reclaiming fragments, witnessing the inner child, remembering past lives and integrating.

I hold our souls with a deep reverence, giving recognition & compassion to what wants to be heard. I have the ability to listen actively and approach each situation with curiosity, to allow the truth room to be seen.

It is my honor and my blessing to evolve and heal with you.
